Accounts Enrolled In  
Demand Response

"NuEnergen is the Hospital for Special Surgery's utility consultant. While we at the hospital conserve on consumption, NuEnergen partners with us to obtain the optimum pricing and best purchasing strategies, not only for the immediate future, but also for the long term. Since working with NuEnergen, the Hospital has saved hundreds of thousands of dollars in electrical costs, and has been able to develop more accurate utilities budgets."

HOSPITAL FOR SPECIAL SURGERY**

## DEMAND RESPONSE

Receive regular payments to shed electrical load when the power grid is stressed. NuEnergen enables participation that optimizes earnings without disrupting day-to-day operations using customized protocols designed for your location.

## ENERGY PROCUREMENT

In a deregulated market, purchasing energy at the best price can be a complex endeavor. NuEnergen will solicit, negotiate and recommend sourcing contracts specific to your facility, optimizing unit supply cost and managing risk.

## UTILITY INVOICE AUDITING

NuEnergen will ensure all current and past energy invoices are accurate and do not contain overcharges. Our auditing team utilizes sophisticated and thorough practices that have delivered millions of dollars of refunds for our clients.

## ENERTRAC DASHBOARD

NuEnergen's online energy dashboard, EnerTrac, is comprised of customer energy invoices collected and uploaded by our inhouse data specialists. Accessible 24/7/365, EnerTrac allows customers to download reports and otherwise gain an understanding of their energy costs and usages.

## REAL-TIME METERING

Managing consumption and optimizing load patterns is very difficult if the only data one has access to is a monthly invoice arriving after the fact. NuEnergen's RTM solution allows much greater insight into usage patterns, transmitting data every few minutes and rendered through our online portal.

## ENERGY CONSULTING

NuEnergen is a multi-disciplinary firm, and as such, we have considerable expertise in a lot of things. Aside from the services above, we can also help with respect to:

Annual Budgeting  
EPA EnergyStar

Cooling Tower Credits  
Tariff Optimization

Local Law Compliance  
Business Incentive Programs

**COVERAGE FOR ALL  
YOUR ENERGY NEEDS**
